About Mono County

Mono County is a destination that is full of opportunity and adventure. Set on the eastern slope of California's Sierra Nevada mountain range, Mono County is a rare environment of natural contrasts: soaring granite peaks, spacious desert vistas, serene lakes and cold mountain streams, deep winter snows and sunny summer skies.

With a year-round population of roughly 14,000 spread over 3,000mi.², we are

considered a frontier county. The County seat is located in Bridgeport - situated 350 miles north of Los Angeles and 120 miles south of Reno. The Town of Mammoth Lakes is a world-class resort destination with the four-season Mammoth Mountain Ski Area and lively shopping, music and community venues. Smaller communities such as June Lake and Lee Vining feature relaxed resort experiences like the family-oriented June Mountain Ski Area, and serve as the eastern gateway to Yosemite National Park.

These communities are literally surrounded by hundreds of miles of trails and roads with spectacular hiking, mountain biking, OHV, hunting and

fishing opportunities. Mono County is an ideal place to establish a healthy work-life balance, and the County's working culture encourages that balance while our employees pursue their career paths.

Equipment Mechanic II or III

Job Duties and Qualifications

The ideal candidate will be a motivated individual interested in a challenging career opportunity as a mechanic in the fleet operations division of Public Works. In general, job duties are: Under direction, to service, inspect, diagnose, and repair both gasoline and diesel powered automotive, bus, truck, tractor, and other power-driven equipment; to perform a variety of overhaul and major repair work; and to do related work as required.

Incumbents perform the full range of tasks in their area of specialization and assist in other areas. Duties may include but are not limited to the following: perform the full scope of maintenance and repair work within the area of specialization; assist with repairs outside the area of specialization; requisition automotive and diesel-powered equipment parts; inspect shop work for proper completion; keep records of repairs and maintenance work; prepare reports; request supplies and materials as needed; implement shop safety practices and procedures.

Required Knowledge of:

- Methods, materials, tools, and equipment used in testing, adjustment, repair and overhaul of gas and diesel-powered equipment.
- Theory and operation of gasoline and diesel engines.
- Principles and methods used in a program of preventive maintenance.
- Theory and operation of hydraulic valves and controls, hydraulic and air brake systems, electronic ignition systems.

Ability and willingness to:

- Inspect and accurately diagnose mechanical defects.
- Skillfully use a variety of hand and power tools in repair of automotive and heavy equipment.
- Perform heavy physical labor.
- Estimate time and material for repair jobs.
- Operate a variety of automotive and heavy equipment.
- Read shop and repair manuals.
- Establish and maintain cooperative working relationships.
- Use computers for diagnostic purposes and time and materials accounting.

Training and Experience:

Mechanic II: Two years of increasingly responsible experience as an Equipment Mechanic, or ASE Certifications within the Automotive and/or Medium-Heavy Truck Series (or equivalent) in conjunction with a working knowledge of heavy equipment repair and maintenance.

Mechanic III: Five years of increasingly responsible experience as an Equipment Mechanic, or ASE Master Technician Certification in the Automotive and/or Medium-Heavy Truck Series (or equivalent) with an advanced working knowledge of heavy equipment repair and maintenance.

Desirable Requirements:

Possession of a current Class B driver's license. Possession of various certifications towards the Master Mechanic Certification (or equivalent).

This job flyer should not be construed to imply that these requirements are the exclusive standards of the position. Not all duties are necessarily performed by each incumbent. Additionally, incumbents will be required to follow instructions and to perform other job-related duties as may be required.
